If you are a Canadian citizen and are between the ages of 18 and 35, your next life adventure could take you just in the middle of Europe!

Why not travel and work in Poland ?

Youth mobility agreement

between Poland and Canada gives you the opportunity to travel and work holidays for up to one year.

It is a great way to:

- experience a country of great economic opportunity, trade and investment - it is the only European country that was not affected by the 2008—2009 economic crisis. Large global brands: GM, Volkswagen, IBM, Man, Philips, Samsung, LG, and Procter & Gamble have operations based in Poland as well as Canadian companies such as Pratt & Whitney Canada, Bombardier Transportation, and shale gas field Talisman Energy, Encana and Nexen;
- feel the richness of Polish history and culture – from Middle Ages monuments through Renaissance and Baroque to contemporary arts;
- tour Poland - the country with thousands of landscapes: Baltic beautiful coastal beaches and dunes, lake district (Mazury) carved by a glacier, splendid forests, old (Sudety) and new mountains (Tatras) with the only Table Mountains in Europe, and even though the Bledowska desert; (www.pot.gov.pl)
- meet friendly and hospitable people.
